

SERVICE AGREEMENT

The following verbiage outlines what Eos Television VPEP program delivers to your organization and what you are responsible for providing once our agreement has been validated.

1. **Delivery of your School Video Portal Website** including a personalized URL address (e.g., www.zephyrs.tv), and all personalized custom graphics to for the site (example at www.zephyrs.tv) The School is responsible for supplying EosTV with all existing graphics at the highest resolution available for optimal result. At a minimum the school must provide its Team Logo.

Should the School need additional Graphic Design services EosTV will provide these services at market rates.

2. **Delivery of all hardware** outlined in the Equipment Invoice within 30 days of payment. Scheduling delivery can be tailored to meet your needs depending on construction or building modification schedules necessary to accommodate your new studio facility.
3. **ONE YEAR (Renewable) Access to VPEP** educational curriculum. Contains hands-on training outlines with real world tutorials for students and teachers to learn all aspects of videography and filmmaking.

Eos VPEP provides your schools administration with everything necessary to conduct classes on the various topics necessary to develop professional skill levels in every aspect of motion image and sound production. What Eos Television VPEP Provides: High Definition and Internet Distribution of media content is where it's at today. If you are not up to speed with how to interact with and create content for this space you are not up to speed in today's communication world. We make sure you have the best tools at the best possible price point to get the job done right for many years to come.

VPEP educational curriculum provides the technical basics necessary to perform a given task in every aspect of the production process, and get students working on projects immediately. Initially starting with but not limited to the video coverage of sporting events.

What makes our program unique is its focus on teaching curriculum as well as producing a high volume of consistent professional looking finished programs for near immediate online viewing.

4. **Eos Television will provide In-House Set-Up and Training** with your educators on all equipment operation and curriculum implementation by our training personnel for a period of 3-5 days consecutively each year a service contract is renewed.

The School will ensure their key personnel heading the VPEP program are available for training at least 4 - 8 hours per day for the duration of the scheduled training week. Classes should be scheduled 72 hours after delivery of all hardware to your facility.

In-House Training period may vary from 3-5 days depending on the competency of the group. If our trainer and your personnel mutually agree that they are up to speed with the program earlier than the full five days of training we can opt to end the training period early.

Our goal is to ensure your staff is up to speed and ready to go, familiar with all equipment operation and the implementation of the VPEP training Curriculum, before our instructor ends the on-site Training Session.

In the unlikely event that additional training may be requested by your staff beyond the 5 days, we will negotiate a custom contract based on the mutually agreed upon additional time required at an industry-standard reasonable daily rate plus expenses.

Eos Television is committed to exemplary service. We guarantee the smooth operation of your VPEP program throughout the school year. It is in both of our best interest to ensure you are completely satisfied and fully operational at all times. Rest assured we will always do everything humanly possible to resolve any issue that may arise.

We look forward to working with you.
